1. General context

1.1 Elia Group Inside Information Platform

The new ACER Guidance v5 obliges market participants to publish their REMIT inside information on an official listed Inside Information Platform as of the 1st of January 2021. Before this date, inside information was published on the website of each market participant.

Elia has implemented a B2C tool named UMM Editor that allows market participants to send UMMs of other market information to Elia.

Market Participants have to confirm and sign a contract with Elia, before allowing any publication on the Elia Group IIP via the UMM Editor.

1.2 UMM Editor

UMM Editor is the Elia's application used to allow the market participants to send Urgent Market Messages regarding other market information that will be published on the Elia Group Inside Information Platform.

2. Definitions

The following table explains the terminology used by the Elia Group Inside Information Platform.

Terms	Definitions
Event Start	<p>The field 'Event start' describes the expected (if future) or actual (if past) starting time and date of the relevant event. This field together with the 'Event stop' field allows the knowledge of the timeframe of the event and the assessment of its potential impact on wholesale energy prices.</p> <p>The timezone on the dashboard is presented on local time, while the timezone in the 'Export' files are presented on UTC time.</p>
Event Status	<p>The field 'Event Status' allows the distinction between UMMs that contain the most recent information on an event and can still influence trading decisions, and UMMs that are already outdated or that were updated:</p> <ul style="list-style-type: none"> - 'Active' refers to a UMM that contains the most recent update on an event that will occur in the future or is occurring. - 'Dismissed' refers to a UMM that is not valid anymore due to the fact that it was cancelled, withdrawn or updated in the meantime. - 'Inactive' is used for UMMs containing the most recent update on an event that already occurred in the past.
Event Stop	<p>The field 'Event stop' describes the estimated (if future) or actual (if past) time and date at which the relevant event stops(ed). This field together with the 'Event start' field provides the timeframe of the event and the assessment of its potential impact on wholesale energy prices.</p>

	The timezone on the dashboard is presented on local time, while the timezone in the 'Export' files are presented on UTC time.
Market Participant	The official name of the consumer(s) that falls under the obligation of Article 4 of REMIT, regarding the specific event.
Market Participant EIC Code	This field identifies the consumer by its EIC code obtained while registering in accordance with Article 9 of Regulation (EU) No 1227/2011.
Message ID	This field aims to capture the identifier of the message issued by the consumer or by someone acting on its behalf.
Publication Date/Time	The field 'Publication date/time' defines the point in time when the inside information was disclosed to the public through the UMM. The timezone on the dashboard is presented on local time, while the timezone in the 'Export' files are presented on UTC time.
Remarks	The field 'Remarks' provides more detailed information on the event that allows a full understanding of its potential impact on wholesale energy prices.
Title	Small description of the event
Version	This is the version of the UMM for a specific event. The latest version is published on the dashboard and prior version are accessible by clicking on latest version.

3. Operating UMM Editor

3.1 Access to the application

3.1.1 Create an account

The market participant should first get access to the application of UMM Editor.

How to do

- Contact Elia Transparency via the email address: Transparency@elia.be
 - o Ask to create an account and you will receive a username (*ISOEXT/MyUser*) and a password.
- Log in with the username and password received on the following link: <https://ummeditor.eliagroup.eu/>

3.1.2 Change your password

Once logged in we advise you to change your password.

How to do

- Change your password via the following link: <https://pwd.elia.be>

https://pwd.elia.be

Password Change

User Name : JM00121

Current password :

New password :

Confirm new password :

Password must contain at least 6 characters [Other rules](#)

3.1.3 Password forgotten

If you have forgotten password forgotten, you can create a new one.

How to do

- Contact Elia Transparency via the email address: Transparency@elia.be

3.1.4 Password expired

Your password needs to be changed every 120 days. 10 days before it expires, you will receive a warning email recommending you to change it via the following link: <https://pwd.elia.be>

The email will look like this:

From: NoReply_PROD@elia.be <NoReply_PROD@elia.be>
Sent: Tuesday, 18 May 2021 11:00
To: Elia Group <XXXX@XXXX.XX>
Subject: Elia Transparency Reporting: password expiration reminder

WARNING: your Elia password will expire

Dear Customer,

By this email we would like to inform you that the password for the Elia transparency platforms (TransProd and/or TransCust applications) will expire in X day(s) . We recommend you to change it as soon as possible by following the hyperlink : <https://pwd.elia.be>

If you need assistance, please contact our support during working hours: transparency@elia.be

You current User ID is: XXXX

The mail was sent to the following recipients: XXXX@XXXX.XX

This is an automatic email, please do not reply to this email.

Best regards

Elia

If you haven't changed your password before it expired, you won't be able to connect to the link. You will therefore need to contact Elia Transparency via the email address: [**Transparency@elia.be**](mailto:Transparency@elia.be)

3.2 UMM Editor Exchange

3.2.1 Create an Urgent Market Message

The market participant can submit Urgent Market Messages about other market information.

How to do

- Click on the button "ADD NEW"

The screenshot shows the 'UMM Other market information' interface. At the top is a search bar labeled 'Search in all fields'. Below it are three filter boxes: 'Publication date' (17/06/2021 - 24/06/2021), 'Event Status' (Select items), and 'Event date'. At the bottom, there are four buttons: 'ADD NEW' (highlighted with a red box), 'EXPORT', 'CLEAR FILTER', and 'SEARCH'.

- Fill in the form with the following information :
 - o Title
 - o Event Start
 - o Event End
 - o Remarks

Title

Grid Restoration Elia - Activation

Event type

Other market information

Event Start

20/06/2021  00:00 

DD/MM/YYYY format

Event End

25/06/2021  00:00 

DD/MM/YYYY format

Remarks

Dear Market participants, The transmission system of Elia Transmission Belgium is now in the Restoration State as defined in Article 18.5 of the System Operation Guidelines (SOGL - Commission Regulation (EU) 2017/1485 of 2 August 2017 establishing a guideline on electricity transmission system operation). Kind regards, ELIA Transmission Belgium

CREATE

CANCEL

- Submit the UMM by clicking on the button "CREATE". It will then appear on the Dashboard.

- A box will appear. You will need to click on the button "Confirm" in order to set the new status of the UMM to "Dismissed".

- The updated data will then appear on the dashboard, and it will not be possible to edit the UMM anymore.

Publication date/time	Version	Event Status	Title	Market participant	Event Start	Event Stop	
25/06/2021 08:50	03		Grid Restoration Elia - Activation	Elia Transmission Belgium	20/06/2021 00:00	26/06/2021 00:00	

3.3 Verification of UMM publication

When the market participant has submitted power outage UMM, he should verify if the UMM is well available on the UMM Editor dashboard and on the Elia Group Inside Information Platform. Note that a delay of a couple of minutes is possible between the message submission and its publication on the platform or feeds.

3.3.1 UMM Editor

On the UMM Editor dashboard, the information about other market information can be found by setting the right filters.

Short view

Only the last version of the UMM is shown under the short view.

The screenshot shows the 'UMM Other market information' dashboard. At the top, there is a search bar labeled 'Search in all fields'. Below it are three filter boxes: 'Publication date' (18/06/2021 - 25/06/2021), 'Event Status' (Select items), and 'Event date'. There are four main buttons: 'ADD NEW', 'EXPORT', 'CLEAR FILTER', and 'SEARCH'. A filter chip for 'Publication Date: 18/06/2021 - 25/06/2021' is visible. Below the filters is a table with columns: 'Publication date/time', 'Version', 'Event Status', 'Title', 'Market participant', 'Event Start', and 'Event Stop'. The table contains one row with the following data: '25/06/2021 08:50', '03', a red lightning bolt icon, 'Grid Restoration Elia - Activation', 'Elia Transmission Belgium', '20/06/2021 00:00', and '26/06/2021 00:00'. A notebook icon is highlighted in the bottom right corner of the table row.

To get to the full view, click on the notebook icon.
